Transitions LifeCare®

The Right Care at the Right Time

"The No. 1 complaint that families report on hospice Consumer Assessment of Healthcare Providers and Systems (CAHPS) surveys is that they wish their loved one had entered hospice sooner."[1]

Within our service area, the average length of stay is 68 days (CMS claims data, 2021), lower than the national average.

Systemic Benefits of Earlier Hospice Referrals

- Help hospital partners by preventing costly readmissions.[2]
- Alleviate crisis care situations.
- Help your patients and families get the support they need ***when they need it.***

DON'T WAIT... REFER.

3. The average Lifelong Length of Stay (LLOS) for Medicare patients enrolled in hospice in 2019 was 92.6 days, which has changed little in the last fifteen years. More current data not available at this time is expected to be in line with this number. https://www.nhpco.org/nhpcos-new-facts-and-figures-report-shows-changes-in-hospice-patient-diagnoses/
